BIOLOGICAL & PETROGRAPHIC MICROSCOPES

EDUCATION LINE

Motic's range of Educational Compound microscopes are designed to cover the needs of educators as well as hobbyists.

The brand Motic assures that you are purchasing a quality instrument that has been thoroughly inspected and adjusted by our trained technicians. Our 10-Year Limited Warranty is supported by a complete parts inventory that assures availability even beyond the warranty period. We are aware that the selection of a microscope of any type requires careful consideration of several factors and not only the price. A Motic microscope is therefore a solid investment, that will pay off with years of hassle-free and quality work.

DIGITAL MICROSCOPY SOLUTIONS

The combination of a Motic microscope with a member of the Moticom Series enables to display and to share excellent live images for presentations and discussions. Discover the possibilities and benefits of connecting a Moticom camera onto your microscope. Multiply your teaching options, improve teaching efficiency!

Standard Live Resolution | Moticom 1 and 2, an ideal and affordable introduction to Digital Microscopy, great for schools or small laboratories.

Wi-Fi streaming | Moticom X, a unique solution to turn your old microscope into a Wi-Fi station

MOTICAMSERIES

18SERIES

Motic's 18 Series LED microscopes offer bright white illumination with no heat. By using a rechargeable battery pack, this microscope can also be used cordless. Whether your science lab is outdoors, lacks electrical outlets or you simply prefer a tangle-free work environment, our 18 Series LED microscopes offer a wide range of possibilities.

28SERIES

Motic's 28 Series LED microscopes offer in addition a coaxial focusing system with a minimum increment of $2\mu\text{m}$ ensures a perfectly focused sample. Within the 28 Series LED microscopes you can choose between a monocular, binocular and even a trinocular version.

PM SERIES

This polarizing microscope utilizes superb mechanics, a rugged platform and it is offered at a cost far from similar models in this category. Motic's petrographic microscope can be used as a standard brightfield or as a polarizing microscope for investigations in geology or mineralogy.
